### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Jones, U. S. Design Patent 148,167. Jones teaches a badge-ribbon having a folded or looped upper and lower end portion. Connected with the folded or loop lower end portion of the ribbon is an ornamental medallion. The medallion is provided at the top with a ring for attaching it to the ribbon. The ribbon taught by Jones has square corners at the top end and tapered lower end for supporting the ring of the medallion.

### *Claim Rejections - 35 USC § 103*

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Jones in view of Russell, U. S. Patent 172,054.
5. Russell teaches a tag-fastener comprising a sheet **B** having a folded upper end and a T-shaped fastener **A** extending through the folded upper end. The folded upper end is secured to the remaining portion of the sheet **B**. The T-shaped fastener has

looped horizontal arms and vertical legs. (See figure 2). It would have been obvious to one having ordinary skill in the art at the time this invention was made to construct the fastener of the badge ribbon taught by Jones with the T-shaped fastener as taught by Russell to provide a means to reduce the time and labor need in attaching the badge to the article and to provide a more economical badge. (See column 2, lines 25-30).

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following U. S. Patents are cited to show badges: Hoag – 27,128 and Swesey et al. – D 281,867.
